Ayer's Sarsaqarilla

A compound remedy, designed to be the most effectual Alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effec-tive antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Struppous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellowritizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints : -

SCHOPULA AND SCROPPLOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AT-PECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RALGIA OR TIC DOULOUREUX, DESILITY, DYS-PEPSIA AND INDIGESTION, ERYSIPELAS, ROSE on Sr. Anthony's Frue, and indeed the whole class of complaints arising from Liverity of

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is ob structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this abulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsapa rilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for elieving it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions or

INDEPENDENCE DAY. IN CONGRESS, JULY 4, 1776. THE UNANIMOUS DECLARATION OF THE THIRTEEN

UNITED STATES OF AMERICA. When, in the course of hum in eyents, it be comes necessary for one people to dissolve the political bands which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the Causes which impel them to the separation.

We hold there truths to be self-evident:that all men are created equal, that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty and the pursuit of hat piness. That to secure these rights, governments are instituted among

men, deriving their just power from the consent of the governed; that whenever any form of government becomes destructive to these ends it is the right of the people to alter or abouteb it, and to institute a new government, laying its toundation on such principles, and organizing is powers in such form, as to them -ball seem most likely to effect their safety and happiness Prudence, indeed, will dictate, that governments long established should not be changed for light and transient causes; and accordingly all experience bath shown, that mankind are more disposed to suffer while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed But when a long train of abuses and u urpations, pursuing inva-riably the same object, evinces a design to re duce them under absolute despotism, it is their right, it is their duty, to throw off such govern ment, and to provide guards for their future se-custy. Such has been the now patient suffer-ance of these colonies; and such is now the necessity which constrains them to after their former systems of government. The history of the present king of Great Britain, is a history of repeated injuries and neurpations, all having in direct object the establishment of an absolute tyrauny over these States. To prove this, let

acis be submitted to a candid world He has refused his assent to laws the most wholesome and necessary for the public good. He has forbidden his governors to pass laws of immediate and pressing importance, unless suspended in their operation, till his assent should be obtained; and when so suspended, he has utterly neglected to attend to them. He has refused to pass other laws for the accommo dation of large districts of people, unless those people would relinquish the right of representation in the legislature—a right mestimable to them, and formidable to tyrants only.

He has called together legislative bodies at

He has made judges dependent on his will alone, for their tenure of their offices and the amount and payment of their salaries. He has erected a multitude of new offices and sent hither swarms of officers, to har-

It is just what we residents and can't-get-aways have been wanting for some years. The effects of this block sde have been beneficial in many respects. We rejoice, especially, in its operation upon those heartless speculators who sought to forestall our market by buying up all the provisions in the city, and holding them for a big rise. The villainy was laid before the Governor, and steps were about to be taken to correct it by aummary action on the part of the authorities of the people, when most reasonably and kindly Poore came with the Bouklyn and saved us all this trouble, by blockading the mouth of the river. Capt. Ward, Killed at Mathias Point The Tribune gives the following account o

Captain WARD: Captain James H. Ward, killed in the above rngagement, was born in Hartford, Conn., in 1806 He was the oldest son of the late Colonel James Ward His education was excellent, an ne was always a devoted student, baving given particular attention to naval tactics, gunuery, and the application of steam to vessels of war; upon these subjects he has written some valu years. He had seen much active service on the African Coast and in the Gulf Squadron African Coast and in the Guil Squarron the Naval sas also at one time a professor in the Naval School at Annapolis, and had for four years been in command of the receiving ship North beautiful to the receiving ship Nor plois at Sewell's Point is well remembered Capt. Ward was married in 1839 to a daugter of Mr. Samuel Whittemore of this city. His widow is now to Europe. A later dispatch concoming this affair, gathered from an official source, states that Capt Ward did not land himen with the design of setting them at work a upon the construction of a battery, but that his intention was to burn a piece of brushwood which served as an ambush whence rebie rifemen were in the habit of firing upon passing vessels. Two of the four men wounded were
